

Proposed Facilities

Athletic Field Renovation

New top-quality synthetic turf that is durable and allows for all-weather, year-round play will be installed. Synthetic turf is quickly becoming the turf of choice in high schools across the country because it reduces the risk of injuries, increases athletic performance and maximizes the usability of fields. Every Crespi student benefits from a new field, whether they play football, soccer, lacrosse, run track or workout in their Physical Education classes.

Track Renovation

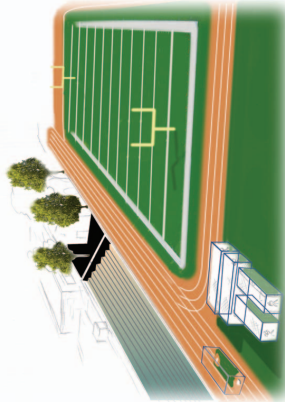

Like the grass of the sports field, the dirt surface of the track is inadequate for all-weather use. A synthetic rubber track will replace the existing track. Highly respected and preferred in the track and field world, synthetic rubber tracks will not allow water to puddle on the surface, making the track available for all weather use. This resilience and versatility reduces the risk of injuries and constant maintenance costs.

Batting Cage Complex

A new batting complex will be installed as part of the Crespi Carmelite High School field complex. The batting cage will allow four student-athletes to bat at the same time. With enough space for the latest pitching machines or live pitchers, the new cage will provide young athletes with a high-quality batting experience.

Celt Pride - Continue the Legacy!

**Athletic Facilities
Enhancement Project
\$2,000,000 Goal**

**Crespi Needs Your Help!
Let's Make This Dream
Become a Reality!**

Dear Friends,

“Celt Pride” is alive and lives in all of us that have shared in the Crespi Carmelite experience. Whether a current student or parent, alumni or alumni parent or community friend, the appreciation for Crespi Carmelite athletics is fervent. The pursuit of physical and athletic excellence is a core factor in which inspires Crespi Men.

The proposed improvements to the athletic facilities are an important part of our commitment to excellence. These new facilities are not only important, they are vital to meeting the needs of Crespi students. Our programs simply can not afford down time due to repair and maintenance, nor do our students deserve to play on turf that simply does not hold up in regular use. We need your help to make our track and field of dreams and batting complex become a reality for this fall.

We must raise \$1.5 million by May 31, 2008 to complete the track and field this summer so our students can enjoy the new facilities this fall. The final \$500,000 for the batting cages is sought by this fall so that the baseball program can access the cages in the 2009 program.

Please join us and make your contribution today.
